

## **PERMANENT MAKEUP ARTIST**

### **Leisa Sutherlin, Permanent Cosmetics**

Leisa has been cosmetic tattooing in Virginia for the past 8 years. She feels there is no other work that she has done that compares to tattooing. “When I am tattooing someone’s make-up, to me, it is not like work at all – it’s like I’m painting a picture. The end result is so gratifying for both of us that nothing else I’ve ever done compares”.

Very early on, around the age of 5, Leisa began drawing and painting and quickly became “the little artist” in the family. From then into her teen years she spent hours and hours experimenting and practicing with make-up on herself.

Little did she know that all of these things were preparing her for what was to become her career later on. Leisa quickly figured out that less is better when it comes to makeup, especially permanent makeup. Her style is a very natural appearance to enhance and bring out the best in what you already have, so that the end result is: No one knows you have permanent makeup unless you tell them.

Leisa’s specialties are Eyebrows, Eyeliner and Corrective Procedures. Her technique involves no machines. All of her work is done by hand, just as if she were drawing with a pen or pencil. She feels this gives her total control over precisely where she wants the pigment to go into the skin resulting in a very natural looking appearance as the final result.
